ODON DOES NOT GUARANTEE AND DOES NOT PROMISE ANY SPECIFIC RESULTS OR USAGE FROM USE OF THE SITE, PRODUCTS AND SERVICES OR ANY RELATED PRODUCTS AND SERVICES OR CONTENT.

Schedule 1 - Farming and Staking

Before using the farming and staking function on the ODON platform, please ensure that you fully understand how the process works. If you select to lock your ODON tokens for Staking Rewards, you will not be able to unlock, access, redeem, trade or otherwise until the entire Vesting Period expires. This is additional feature on ODON Finance platform and will make staking APY higher than on non-vesting contract.

1. Overview

Users who hold ODON tokens (“ODON”) may deposit their ODON tokens into the ODON farm. The deposit periods (“Vesting Periods”) are fixed at 12 calendar months from the date which a user deposits their ODON tokens into the farm. This is additional feature as ODON farm can be used with non-vesting smart contract.

2. Vesting Periods

- 2.1. Vesting Periods are periods where the ODON tokens are completely locked, and a user cannot withdraw their ODON tokens until the Vesting Period has expired. It is the user’s responsibility to ensure that they understand and agree to their ODON tokens being locked for the defined period prior to Vesting (locking) their ODON tokens into the farm.
- 2.2. Once a user agrees to lock their ODON tokens into a Vesting Periods, they will not be able to release their ODON tokens until that period has expired.
- 2.3. There is no exception to the Vesting Periods, once the user agrees to lock their ODON token(s) into a Vesting Period it cannot be revoked, reduced, or modified.
- 2.4. Odon Finance will allow in future emergency withdraw but user will pay 50% tax if he want to withdraw vested tokens before vesting period ends.

3. Rewards

- 3.1. In return for depositing ODON tokens into the farm a user will be entitled to receive rewards (“Staking Rewards”) on their locked ODON tokens. These will vary depending on the Vesting Period(s) chosen and all users must ensure they understand the Staking Rewards prior to locking their ODON tokens into a Vesting Period.
- 3.2. Staking Rewards (ODON tokens per day) are fixed at the amount displayed during the Vesting Period signing up and depositing processes and cannot be modified, increased, or reduced under any circumstances.
- 3.3. Users may receive their Staking Rewards once the ODON tokens in the farm have generated Rewards, this can be withdrawn by the user (“Harvesting”) at anytime and for any or all the Reward amounts. For the avoidance of doubt, it is important that the user understand that they may only Harvest the Reward amount and not the original ODON tokens that are locked on vesting contract.

4. Harvesting

- 4.1. Harvesting the Staking Rewards will not impact the Vesting Period.

5. Increasing Vested ODON tokens

- 5.1. Increasing the amount of Vested ODON tokens will increase the Vesting Period. Each time a user adds ODON tokens to the farm (specifically their Vesting Period), the Vesting Period will reset, and the Vesting Period starts from the beginning. By way of example, if a user deposits 100 ODON tokens in the farm for a 12-calendar month Vesting Period and decides to stake more ODON tokens during the 12-calendar month Vesting Period, the Vesting Period of 12 calendar months will reset and the ODON tokens will be locked for a further 12 calendar months from the date the user stakes the additional ODON tokens.

Working example:

1. A user stakes 100 ODON tokens for a 12-calendar month Vesting Period on 1st December 2022. On 1st December 2022, the ODON tokens will be locked until 1st December 2023 (12 calendar month Vesting Period) at which point it will expire and the ODON tokens are unlocked.
2. During this Vesting Period, the user generates ODON token rewards (Staking Rewards) and on 1th January 2022 (week 5) of the Vesting Period, the user decides to stake 1 additional ODON tokens in the 12-calendar month Vesting Period which began on 1st December 2022.
3. On 1th February 2023 the user stakes the additional 1 ODON tokens in the 3-calendar month Vesting Period. At this point, the 12-calendar month Vesting Period automatically begins again and the new Vesting Period for the 101 ODON tokens will expire and the ODON tokens will be unlocked on the new expiry date of 1th February 2023.

6. Use of ODON Products and Services

- 6.1. All use of ODON Products and Services including the ODON App, features on the site, the farms, staking, the information, and data gathered is for information purposes.
- 6.2. All users must conduct their own due diligence and do their own research and further research and must not rely on ODON Products and Services.
- 6.3. ODON aims to provide accurate information but cannot guarantee that all information is accurate and therefore it must not be relied upon. You must seek independent advice.
- 6.4. The ODON app relies on algorithms that are set and cannot be interfered, changed, or modified by human or other form of intervention.
- 6.5. DYOR!
